

Dunes Mix

Quality Mixture of Fine Fescues

- Low maintenance mixture of creeping red fescue, Chewings fescue, and hard fescue
- Create the 'Bandon Dunes' / Links appearance on your golf course or property
- Great for fairways, roughs, and other low maintenance turf applications

Barenbrug is known worldwide for high quality fine fescue varieties. Our Dunes Mix is a superior quality mixture of these genetically advanced fine fescues. As the need for low-input grasses increases, more and more golf courses are discovering the benefits of fine fescue mixtures. It's no coincidence that two of the world's best-known, fine fescue courses (St. Andrews and Bandon Dunes) choose fine fescues from Barenbrug.

Golf

For tee, fairway, rough, and greens; Barenbrug USA features turfgrass varietal innovations and solutions for the golf superintendent and golfer. Offering unique turf characteristics and traits, Barenbrug USA provides quality and long-term turf performance for your course.
